Welcome to the Board!

The CNSA Board of Directors would like to introduce the newest members of the Board!

National Blood Donor Month, which has taken place each January since 1970, is such an important observance.

Did you know:

- Every 2 seconds someone in the U.S. needs blood and or platelets.
- Approximately 29,000 units of red blood cells are needed every day in the U. S.
- Nearly 16 million blood components are transfused each year in the U.S.
- The average red blood cell transfusion is approximately 3 units.

According to the World Health Organization, “blood is the most precious gift that anyone can give to another person — the gift of life. A decision to donate your blood can save a life, or even several if your blood is separated into its components — red cells, platelets and plasma.”
